

PowerCool

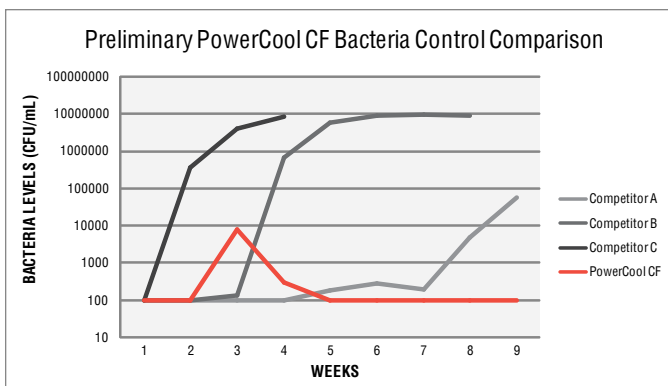

NEW POWER FULL Line of Coolant

PowerCool & PowerCool CF

PowerCool is a water-soluble oil designed for heavy to moderate-duty general machining on ferrous/nonferrous metals, aluminum, brass, bronze, and copper. PowerCool is based on a new advanced technology to provide increased biostability for better sump life. This new coolant is for the price sensitive customer looking for good overall performance at a competitive price.

PowerCool CF is chlorine free and is also recommended for titanium.

- ➔ Reduced maintenance
- ➔ Enhanced performance
- ➔ Good bacterial/fungal resistance
- ➔ Longer sump life
- ➔ Economical solution

PowerCool coolants outperform leading competitors' products in bacteria and fungal control in an independent lab study.

PRODUCT SPECIFICATIONS

Product	PowerCool	PowerCool CF
Concentrate Color	Golden - light brown	Golden - light brown
Dilute Color	Milky white	Milky white
pH (at 10%)	9.4	9.4
Specific Gravity	0.97	0.95
Flash Point	> 200°F (93°C)	> 200°F (93°C)
Chlorine	4.1%	0.0%
Mineral Oil	58%	58%
Part # 5 gal	82205	81105
Part # 55 gal	82255	81155
